ADVISORY NOTES

1. This approval, granted under the provisions of the Planning Act 2016, shall lapse six (6) years from the day the approval takes effect in accordance with the relevant provisions of s85 of the Planning Act 2016.
2. The Civil Aviation Safety Authority (CASA) recommends that the Major Utility (Telecommunication Tower) is lit at the highest point during the hours of darkness by medium intensity steady red lighting.
3. Prior to commencing any construction activities, the applicant/developer will be required to obtain further development permits for building work as required under relevant legislation for this work.
4. This approval does not negate the requirement for compliance with all other relevant Local Laws and other statutory requirements.
5. The *Environmental Protections Act 1994* states a person must not carry out any activity that causes, or is likely to cause, environmental harm unless the person takes all reasonable and practicable measures to prevent or minimise the harm. Environmental harm includes environmental nuisance. In this regard, persons and entities, involved in civil, earthworks and construction phases of this development, are to adhere to their 'general environmental duty' to minimise the risk of causing environmental harm.
Environmental harm is defined by the Act as any adverse effect, or potential adverse effect whether temporary or permanent and of whatever magnitude, duration or frequency on an environmental value and includes environmental nuisance. Therefore, no person should cause any interference with the environment or amenity of the area by reason of the emission of noise, vibration, smell, fumes, smoke vapour, steam, soot, ash, dust, wastewater, waste products, grit, sediment, oil or otherwise, or cause hazards likely in the opinion of the Council.
6. In accordance with the Environmental Protection (Water & Wetland Biodiversity) Policy 2019, all sand, silt, mud, paint, cement, concrete, builders waste or rubbish shall not be permitted to enter or be placed where it could reasonably be expected to more into a roadside gutter, stormwater drain or watercourse. On the spot fines apply for such offences.
7. All building site managers must take all action necessary to ensure building materials and/or machinery on construction sites are secured immediately following the first potential cyclone warning and that relevant emergency telephone contacts are provided to Council Officers, prior to Commencement of Works.
8. This development approval does not authorise any activity that may harm Aboriginal and Torres Strait Islander cultural heritage. It is also advised that any land use activities must comply with the *Aboriginal Cultural Heritage Act 2003* or the *Torres Strait Islander Heritage Act 2003*.
9. The Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* applies to action that has, will have or is likely to have a significant impact on matters of national environmental significance. Further information on the *EPBC Act* can be obtained from the
